PH PROBES
SPH4-CR-DJ

Code: 9900105016

Main Features
- Low maintenance sealed unit
- Gel filled reference cell
- S8 connection with PG 13,5 mm
- Glass Body
- Ceramic Diaphragm

Field Application
- Wast water
- Drinking Water
- Cooling Towers
- Fish farming
- Galvanic Process

Further Features
- Range: pH 0÷14
- Temperature: 0 ÷ 60 °C
- Pressure: 0 to 2 bar
- Trasparten glass Body
- Double junction with KCL Gel and one Number of Diaphragms
- S8 connector: PG13,5 mm mechanical connection and S8 electrical connection.
- Batch production number.
- Single Package with neutral carton box.
- Neutral Label.

TECHNICAL CHARACTERISTICS

pH Range:	0 ÷ 14
Min. Conductivity:	5 µS/cm
Temp. Range:	0 ÷ 60 °C
Pressure Range:	0 to 2 bar
Body material:	Glass
Diaphragm material:	Ceramic
Number Diaphragm type:	1
Mechanical Mounting:	PG 13.5 mm
Electrical Connection:	S8 electrical connection
Reference:	GEL
Storage temperature	+2 ÷ 50 °C (do not freeze)

DIMENSIONS
