pH PROBES
SPH2-WP-SJ

Code: 9900105003

Main Features
- Low maintenance sealed unit
- Gel filled reference cell
- S8 connection (S7 and PG 13,5 mm)
- Pellon Diaphragm high accuracy

Field Application
- Wast water
- Drinking Water
- Cooling Towers
- Irrigation

Further Features
- Range: pH 2÷12
- Temperature: 0÷60 °C
- Pressure: 6 Bar
- Trasparten plastic Body
- Single junction with KCL Gel and Pellon diaphram.
- S7 electrical connection
- Batch production with 4 number to indicate Week and Year production.
- Single Package with neutral carton box.
- Neutral Label.

TECHNICAL CHARACTERISTICS

pH Range	2 ÷ 12
Min. Conductivity	50 µS/cm
Temp. Range	60° C
Pressure Range	up to 6 bar
Body material	Epoxy
Diaphragm material	Glass
Mechanical Mounting	PG 13.5
Electrical Connection	S7
Reference	GEL
Offset	±12 mV
Gain	97% of theoretical or higher
Storage temperature	+2 ÷ 50 °C (do not freeze)

DIMENSIONS
